

FUN ACTIVITIES TO TRY AT HOME

- Put on a talent show.
- Draw pictures on each others back using your fingers and guess what's been drawn.
- Write numbers or words in salt, sugar or even just in water.
- Make a reading den using bed sheets, cushions, boxes etc...
- Record a workout and send to a friend to copy.
- Make a journey stick on your walk/cycle. Add a piece of sellotape to string/paper and collect treasures on your walk.
- Create a word search for a family member to complete.
- How many ways can you write your name using a pencil? Think about size, shape, bubble writing, curly writing etc...
- Take paper outside and add dinosaurs, insects, toys etc. Draw the shadows at different points of the day.
- Write and sing a 'Lockdown Rap'.

5 SIMPLE WAYS TO GET MATHS INTO YOUR CHILD'S DAY WITHOUT HAVING TO SAY THE WORD 'MATHS'

- Count your steps on your daily walk. Decide on counting in 1s, 2s, 5s, 10s etc...
- How many different shapes can they find in the house? Discuss if they are 2D or 3D.
- Cook together and weigh out the ingredients as a team.
- Estimate how many door handles there are in each room. Plot a bar chart to show how many you found.
- Using spaghetti or pencils, ask your child how many numbers they can make from them.

Maths DOES NOT have to be:

Worksheets

Boring

Scary
